

15-Day Specialty Drug Limitation Program List

Following are the drugs currently included in the 15-Day Specialty Drug Limitation Program. This program targets highly potent specialty drugs that have an increased rate of adverse reactions. It applies only to members trying the drugs for the first time. Members are charged half their copayment for the 15-day supply. These drugs may require a prior authorization.

Antineoplastics (cancer drugs)	
Afinitor [®]	Nexavar [®]
Sprycel [®]	Sutent [®]
Tarceva [®]	Votrient [™]
Zytiga [™]
